The Committee returning, presented the following Message from His Honor Mayor Steil:

Mayor's Office,
Hoboken, Jan. 1, 1906.

To the Council:

Gentlemen—The honor which I now assume upon the mandate of my fellow-citizens, manifested in so flattering a manner at the recent election, is commingled with a feeling of extreme pleasure when I realize that this new responsibility does not remove me from the scenes of my past official labors with you, the pleasant memories of which will be cherished among the happiest recollections of my public life.

It is a pleasure to note that never in our history has the city sustained such an enviable record for the high character and general excellence of its public institutions, as well as for its splendid financial condition and reputation, which entitle it to claim now, as it has in the past, a place second to none among the best governed cities in the State.

I cannot fail to observe, however, that my assumption of the Mayoralty chair at this time is coincident with a general public demand, not only in this State, but throughout the Union, for a reform in the system of public administration, so that each official shall owe responsibility not to his party, primarily, but to the people, independent of party, whose servant he has become.

It is in view of the recognition by me of this principle of official responsibility that I ask at your hands, and at the hands of all the public bodies that disburse the public funds, absolute and unqualified economy and watchfulness, so that it shall not be suspected, much less said, when my term as Mayor shall have ended, that we, as the trustees of the public property, faith and honor, shall have forgotten our positions of trust, or become reckless or negligent in the execution of the public duties we have sworn faithfully to perform.

Your attention is called specifically to this because custom, which has almost assumed the force of unwritten law in our public boards, has devolved upon one or more members of committees the duties which the Charter states shall be performed by the entire board, and for the strict and honest performance of which you and I are held responsible by law.

Committees were never intended to supersede the entire board in the performance of public

duties. Nothing should be ordered, no obligations should be contracted, except in cases of absolute necessity, by any member or members of a committee until the matter has first been presented to the Council, and a resolution in favor of the proposal passed or the committee empowered by resolution to contract. It is a reversal of all parliamentary practice and procedure, not to speak of the violation of the language and spirit of the Charter, excepting in a few instances specifically stated in the ordinances, for a committee to originate work or make contracts, and incur expense, and then insist upon the Council approving the committee's work. This system has resulted not only in friction and disputes, and the tying up of the bills of merchants and mechanics, but has increased the floating indebtedness, a thing which our Charter does not contemplate as existing.

The limitation of our expenditure each year is prescribed in the appropriations made by the Board of Tax Commissioners, and beyond that figure no board or body in the city has any right to go. The exceeding of such appropriation and the incurring of indebtedness beyond the limit of appropriation is not only illegal, but is also criminal malfeasance.

If it be said that the city, in its various departments may suffer by reason of the sparseness of the appropriations, such a consideration must be urged before the Tax Commissioners, who make the appropriations, and not before the Council or any other city board, which has to deal only with the expending of the moneys so appropriated.

I speak the more freely on this subject to the Council because my experience of many years as one of your number has impressed upon me the necessity for a reform in this particular, as a vital matter in the future for the safe, proper and economical governing of our city, which, I am sure, we'll have at heart.

The proper, intelligent and expeditious management of the city's affairs demands that the Council committees should meet a night or two previous to the general meeting night, for the consideration of matters submitted to them, and for the purpose of hearing citizens upon any subject affecting their interests. The business of the Council should be practically disposed of and settled in the committee meetings, as is done in all legislative bodies, and the heads of the various city departments should be notified to be present for the purpose of enabling your members to intelligently and expeditiously dispose of the matters referred to the committees at the previous meeting of the Council. If you follow this practice, I feel

confident that you will, in the end, save time and trouble for yourselves, give satisfaction to the public, and expedite the hours of convening and closing your regular stated meetings.

Under a regulation made with the banks many years ago, the city receives two per cent interest on daily balances over ten thousand dollars. The conditions of banking have changed in the last five years, as a result of which ordinary depositors receive interest on daily balances over five hundred dollars. I call your attention to this so that action may be taken at once to place the city on the same footing in this respect with the individual. The banking institutions here have at all times been willing to accommodate us when necessity demanded, by the use of temporary loans, and I am pleased to acknowledge this friendly disposition, but I am sure they will admit the justice of the city's claim in this matter.

Our schools, I am convinced, are well and economically managed, and should be a source of pride to our citizens. The necessity for additional schools increases yearly and happily goes to show that race decline is not prevalent here. Already another school for the Fourth Ward has been decided upon on property purchased at a low price at Second and Monroe streets, and a new High School will, I trust, during the current year, be well advanced toward completion on Garden street, opposite Church Square Park. These improvements entail additional bond issues and city indebtedness, but as the price of enlightened liberty and intelligent citizenship, their construction and cost is a great patriotic, moral and intellectual investment.

The Fire and Police Departments will receive my careful attention during the next two years, and any reform or improvement which the public may be entitled to receive will be carefully considered, I am sure, by the boards in control of the departments. The full and sufficient supply of water is a question of vital importance for the Fire Board to consider. In connection therewith, I think the best results would be obtained by the construction of a thirty-inch main through the centre of the city, running north and south, and a system of lateral pipes connecting therewith, so as to furnish an abundance of pressure in any part of the city in case of an emergency. The introduction of some such system would mean greatly reduced rates of insurance. I would also call the attention of the Fire Board to the immediate necessity of erecting a fire house and maintaining a company in the factory district of our city, the northwestern section of the Fifth Ward.

The question of maintaining detectives at the

steamship docks without extra compensation to the city from these companies is an important subject for the Police Board to consider. Extra service supplied to these interests should bring to the city the means of supporting it from the companies benefited.

The Board of Health is of vital importance to the city and the welfare of our citizens, and I am pleased to say that the character of the men composing it is the best guarantee of its efficiency.

The streets of our city are in good shape, and the Street Commissioner deserves commendation for his faithful and effective work in keeping them clean. Washington street needs repaving, but before that can be done it will be necessary for your Board, the Common Council, to determine and designate the location of the conduits for the wires of the telephone companies. One of these companies has already secured the privilege to lay conduits in some of our streets, but it is your duty to prevent the companies from going beyond their rights and appropriating whole streets. In this connection I will state that I am unalterably opposed to the granting of public utility franchises to private corporations unless the city receive proper compensation therefor.

The Free Public Library speaks of the progress of this city in the educational line, and the great number of our scholars and pupils who daily use its files indicates at once that it is a valuable supplement to our educational department, and well merits our careful attention and liberal support.

The Manual Training or Industrial School is in the same line of supplementary education. The importance of this school is not fully appreciated by our citizens. It affords a practical education in the manual arts to boys and girls of all schools, public and private. The work of the pupils is intensely interesting and it is to be hoped that the trustees will at stated times give public exhibitions of this work, so that the benefits to be derived from this practical school may receive their due meed of praise and our unanimous support.

Nothing outside of the educational question requires so much attention and practical consideration as our sewers. There is not, nor has there ever been in this city, a sewer system worthy of the name, particularly in the Third, Fourth and Fifth Wards. The sewers there are without system, and the day must come sooner or later when a radical change must be made, if the health of our people is to be properly safeguarded. I have no special plan or fad for solving this problem, but the fact that the tides of the Hudson at certain seasons overflow the meadow district as completely as

they did in the days when the "Half-Moon" anchored in Weehawken Cove, and place life and health in jeopardy, should call the attention of all serious-minded men to the importance of a proper and radical solution of the problem before it is too late.

The city is to be congratulated on the general character and efficiency of its public servants. The greater part of my public life has been spent among them, and I have been confirmed in my conviction that while mistakes may be made, as indeed mistakes are sure to be made in the administration of any great business proposition, such as the affairs of a great city, yet in character and calibre our officials will compare favorably with those of any city in the State. They are courteous, industrious and efficient, and they bring with them into the daily performance of their public duties the same spirit and character that actuates them in their private life. Of them and of you, upon this auspicious beginning of my administration, I bespeak a continuance of this worthy and commendable spirit for my support and guidance, and extend to you my best wishes for a Happy New Year.

Respectfully yours,
GEORGE H. STEIL,
Mayor.

The following report of the Commissioners of Assessments, forwarding map for the assessments of building of sewer in Madison street, between Ferry and First streets, was presented, read and referred to the Committee on Sewers:

Hoboken, Feb. 14, 1906.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—We the undersigned, Commissioners of Assessments, herewith present to your Honorable Body our report, with the accompanying assessment map for the improvement (sewer) in Madison street, between Ferry and First streets.

Being entirely disinterested and not owning any land or real estate along the line of said improvement, we proceeded with the making of this assessment by carefully examining the improvement on the ground, and by ascertaining and locating all lands and real estate benefited by the same. The accompanying map and assessment list shows the location and extent of all lands and real estate so benefited, designating each lot or parcel by lot and block number and the names of all owners as far as could be ascertained.

We have found the entire costs and expenses or said improvement to be \$10,261.20. We have ascertained that the total cost and expenses of said improvement exceed the benefits received by all land and real estate therefrom to the amount of \$7,760.20, which amount we have assessed upon the city at large, the remaining sum of \$2,501 we have assessed upon all lands and real estate benefited in proportion to benefits received.

We have also considered the question of damages and have concluded, after full deliberation, that no property was damaged by the making of this improvement, and that no person or persons were in any manner entitled to damages on account of the said improvement.

We have examined into the whole matter and have appointed a time for a hearing for all persons interested at the City Hall on Friday, the ninth day of February, 1906, at 7:30 o'clock p. m., and then and there have heard the objections and claims made before us against the said assessment, and after having carefully considered the said objections and claims at a subsequent meeting held by us, we have finally completed our assessment as shown in the map and assessment list accompanying this report.

Respectfully yours,

JAMES HARKSEN,

C. F. GUTH,

W. KACKENMESTER,

Commissioners of Assessments.

The following communication from His Honor, Mayor Stell, forwarding a communication received from Chief of Police Hayes, was presented and read:	

Mayor's Office,

Hoboken, N. J., March 14, 1906.

To the Council:

Gentlemen—I enclose herewith a communication from Chief of Police Hayes, relative to alleged disorderly houses, and recommending the revoking of the licenses of said places. I would earnestly urge you to give this communication your immediate attention and would suggest that your Honorable Body cite the persons named to appear before you at as early a date as possible to show cause why their licenses should not be revoked.

Respectfully yours,

GEORGE H. STEIL,
Mayor.

Hon. George H. Steil, Mayor and President of the Board of Police Commissioners, City of Hoboken:

Dear Sir—Since the Board of Police Commissioners, by your initiative, placed the affairs of this department directly under my orders, I have been enabled to more vigor-

ously pursue investigations of resorts which I had reason to believe were a menace to the community. I detailed officers on this special work, which resulted in the taking into custody of four young women, who had been frequentes of saloons and dance halls located in this city. Statements obtained from them confirmed the reports made by my officers and warranted me to act in the summary manner in which I did, by causing the arrest of several saloon and hotel keepers and many other men criminally implicated. At the hearing before Recorder Stanton it was disclosed by the testimony of these young women that some of the men now under arrest were acting as "procurers" for them, and were alert to the efforts of the officers watching the places under suspicion. Many promising clues were thus destroyed and investigations unavoidably prolonged. The persistent efforts of the officers were finally successful and in every instance were the defendants held for action of the Grand Jury.

From time to time I have officially communicated with the Council of this city concerning saloons, which, to my view, should not be licensed. It is a recognized fact that in order to successfully cope with a situation such as confronts us, it is incumbent on the governing body of this city to render material and effective aid to this department by a hearty and sincere co-operation in our endeavors to secure a better standard in the ownership and conduct of saloons in Hoboken.

Will you kindly submit to the Board of Council of this city for their serious consideration my protest against the following owners and their licensed saloons, with the suggestion that upon the revocation of these licenses no saloon be permitted on the premises mentioned for the space of at least one year?

The following report from the Commissioners of Assessments was presented, read and referred to the Committee on Streets and Assessments.

Hoboken, March 4, 1906.

To the Honorable the Mayor and Council:

Gentlemen, we the undersigner, Commissioners of Assessments herewith present to your Honorable Body our report, with the accompanying assessment map, for the improvement of Clinton street, from Eleventh to Twelfth street. Being entirely disinterested and not owning any land or real estate along the line of said improvement, we proceeded with the making of this assessment by carefully examining the improvement on the ground and by ascertaining and locating all lands and real estate benefited by the same. The accompanying map and assessment list shows the location and extent of all lands and real estate so benefited, designating each lot or parcel by lot and block number and the names of all owners as far as the same could be ascertained. We have found the en-

tire costs and expenses of said improvement to be \$6,628.93. We have ascertained that the total costs and expenses of said improvement exceed the benefits secured by all land and real estate therefrom to the amount of \$2,125.29, which amount we have assessed upon the city at large. The remaining sum of \$4,503.64 we have assessed upon all land and real estate benefited in proportion to benefits received. We have examined into the whole matter and have appointed a time for a hearing for all persons interested at the City Hall, on Thursday, the 1st day of March, 1906, at 7.30 o'clock p. m., and then and there have heard all objections and claims made before us against the said assessment, and after having carefully considered the said objections and claims at subsequent meetings held by us, we have finally completed our assessment, as shown on the map and assessment list accompanying this report.

Respectfully,

JAMES HARKSEN,
W. KACKENMEISTER,
C. F. GUTH,

To the Honorable the Council of the City of Hoboken:

Gentlemen—Your Committee of the Whole, to whom was referred the charges preferred against keepers of inns, taverns and houses of public entertainment in the City of Hoboken, would respectfully report that they met on Monday, the nineteeneth day of March, 1906, and again on Thursday, the twenty-second day of March, 1906, in the Council Chamber, and heard the complaints of the Chief of Police against each of the parties against whom he had preferred charges, and also heard in each case, when it was presented, the testimony of the witnesses in favor of the parties charged.

And your Committee would further report that having heard all the testimony in support of the charges and all the testimony of the defendants and their witnesses against the charges, and having fully considered the same with due regard to the rights of all the parties interested, as well as the rights of the public under the law, we have come to the conclusion that the charges of the Chief of Police against the following parties are sustained by the proof and evidence: Joseph Fino, 414 Jackson street; Frank Luciano, 400 Madison street; Louis Matti, 332 Jackson street, and Henry Muller, 100 Park avenue, and we would recommend that the application for licenses in each of the above cases be refused and rejected. In the case of Henry Carlsen, 130 Hudson street, and Henry Fruchtnicht, 119

Hudson street, while we are satisfied that both of these parties have not conducted their business in a proper manner, still we do not think that the evidence adduced was sufficient to justify us in revoking the licenses already granted, as the licenses in both of these cases expire very soon, the Carlsen license on April 30 and the Fruchtnicht license on June 7.

In view of these facts we would recommend that Carlsen and Fruchtnicht be allowed to run under their licenses until same expire, provided that no other complaint be preferred against these places by the Chief of Police; then their licenses be at once revoked and that they be not renewed when they expire. In the cases just mentioned we would recommend for adoption to your Honorable Body the following resolution:

Resolved, That applications for the transfer of licenses of Joseph Fino, at 414 Jackson street; Frank Luciano, at 400 Madison street; Louis Matti, at 332 Jackson street, and Henry Muller, at 100 Park avenue, be and they are hereby rejected.

Dated March 27, 1906.

Respectfully submitted,
By the Committee of the Whole,
HERMANN R. HOPPE,

Mayor's Office,

To the Council:

Gentlemen—Herewith find enclosed communi-

cations received from the Jefferson Trust Company, the First National Bank, the Trust Company of New Jersey, and the Hoboken Trust Company, in relation to the interest on daily cash balances.

Respectfully yours,
GEORGE H. STEIL,
Mayor.

Jefferson Trust Co.,
Hoboken, March 21, 1906.

To the Mayor of the City of Hoboken, City Hall, Hoboken, N. J.:

Dear Sir—We allow the City of Hoboken interest at the rate of two per cent on all moneys deposited with us, or that may be deposited with us in the future.

Very respectfully yours,
PERCIVAL HOLLAND,
Ass't Sec. and Treas.

First National Bank of Hoboken,
Hoboken, Feb. 5, 1906.

Hon. Geo. H. Steil, Mayor, City of Hoboken:

Dear Sir—In accordance with your verbal request of a few days ago, I would say that beginning with February 1 this bank will pay interest on the City Treasurer's account at two per cent per annum on all over an average balance of \$500.

Very truly yours,
FRANK HODSON,

The Trust Co. of New Jersey,
Hoboken, March 28, 1906.

Dear Sir—Confirming my conversation had with you some time ago, and as requested by you, I have the honor to inform you that this company will pay the City of Hoboken two per cent interest on its average daily balances over \$100, created monthly. This is the same rate that we pay to all of our other check depositors.

I have the honor to remain,
Yours very respectfully,
WM. C. HEPPENHEIMER,
President.

Hon. George H. Steil, Mayor of Hoboken,
Hoboken, N. J.

Hoboken Trust Company,

Hon. Geo. H. Steil, Mayor, City of Hoboken, N. J.:

My Dear Mayor—In accordance with your request, I herewith beg to inform you that this company will be pleased to allow two per cent interest on daily balances above \$200 upon such city money as you may desire to deposit with us.

Public Schools Nos. 2 and 6, the Second Precinct Police Station, and Truck House No. 1 of the Fire Department, are located in the uptown section of our city, and in close prox-

imity to our bank. The city employees of these departments find it quite convenient to have their monthly warrants cashed at this bank and we have always been glad to accommodate them.

In view of the above it would seem as if the uptown section of the city is entitled to some of the city's funds, and we therefore will greatly appreciate anything that you may do for us in this direction.

Thanking you for your kind inquiry, we beg to remain,

Yours respectfully,
CHARLES FALL.

Th following communication from D. A. Haggerty, Street Commissioner, was presented, read and referred to the Committee on Streets and Assessments in conjunction with the Corporation Attorney:

Hoboken, April 11, 1906.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—I respectfully request your Honorable Body to pass an ordinance obliging the house owners, lessees, housekeepers, janitors, tenants and storekeepers to separate the papers, straw and all paper refuse from the ashes and garbage, and forbidding the same to be placed on sidewalks, and that the contractor for the collection of ashes and garbage be required to make separate collections for the paper, straw and paper refuse three times a week, by having his men call for same where card is displayed, excepting on Washington and First streets, which should be called for daily. Said cards to be furnished and distributed by the city, and displayed in windows where they can readily be seen, and not higher than the first story.

This is made necessary from the fact that it is impossible to keep streets clean in our city and it is like "burning money up" trying to do so, unless some such action is taken.

I would also recommend that the ash cans, barrels, boxes and all other receptacles for ashes and garbage be not allowed to be placed on the curb line, but within the court yard limits. This, in my opinion, would prevent the filling beyond the capacity of such receptacles by the housekeepers, tenants, etc., and stop the small boy from dumping the same and horses attached to delivery wagons from nosing into said receptacles and upsetting them while deliveries are being made.

Trusting you will take some action in the matter to take effect at expiration of present contract, I am,

Very truly yours,

D. A. HAGGERTY,
Street Commissioner.

Mayor's Office,
Hoboken, April 25, 1906.

To the Council:

Gentlemen—Hereunto annexed I present a communication from Messrs. Keuffel & Esser, relative to a petition presented to your Honorable Body several months ago, for permission to erect a bridge over Adams street to connect their building with their present plant, and on which petition action has been deferred. I would respectfully recommend to your Honorable Body that, in consideration of the liberal offer of five hundred dollars (\$500) per annum, made by Messrs. Keuffel & Esser for the privilege asked, and in view of the fact that the said company employs a large number of residents of this city, and that the enlargement of their plant will tend to the employment of more people, I am of the opinion that such industries should be encouraged, and I trust that your Honorable Body will give their petition your favorable consideration.

Respectfully yours,
GEORGE H. STEIL,
Mayor.

Hoboken, April 20, 1906.

Hon. Geo. H. Steil, Mayor, Cit yof Hoboken:

Dear Sir—The Keuffel & Esser Company last fall petitioned the Common Council to permit us to construct a bridge across Adams street to connect their present factory at the northeast corner of Third and Adams streets with the new buildings on the other side of the street, now in course of construction.

We repeat this request to you and the Common Council, and hope that this privilege will be granted to us, at the same time ask permission to place the bridge about 100 feet north of Third street, as there it will be more suitable for the new buildings.

We are willing to pay the City of Hoboken an annual tax of \$500 for the privilege as long as the bridge will be in use by us.

Trusting that this proposition will meet with your and the Common Council's favor, we remain,

Yours respectfully,

KEUFFEL & ESSER,

Wm. Keuffel,
President.

To the Honorable Council:	
Gentlemen—I am informed by the City Clerk that you desire my opinion as to your right to transfer unexpended balances which may exist in certain funds. I therefore would advise you that under an act of April 23, 1888, your Honorable Body is authorized by ordinance to appropriate and expend the excess of the fees received from licenses for the sale of intoxicating and brewed liquors over and above the amount appropriated by the Tax Commissioners of the city to any other department, or departments of the city; that your Honorable Body may think necessary in the best interest of the city, and if unappropriated by your Honorable Body by ordinance, such excess of license fees shall go to the Contingent Fund.	

I would further advise you that you have the power also to transfer and carry forward by ordinance under the act of 1885 any unexpended balances of taxes and appropriate the same to the payment of any subsequent year of any expenses incurred or to be incurred similar in character to the expenses made; provided that the ordinance states the amount so appropriated and the specific object, or fund to which it shall be appropriated; and the balance so transferred shall then be used and applied for the specific purpose mentioned in the ordinance transferring it; such ordinance shall not be passed, however, until the close of the fiscal year.

Yours truly,

JAMES F. MINTURN,

The following communication from Leon Abbett, attorney for James Padavano, was presented, read and on motion of Councilman Fitzpatrick, referred to the Committee on Streets and Assessments in conjunction with the Corporation Attorney:

Hoboken, May 10, 1906.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—Mr. James Padavano submitted a bid to your Honorable Body last evening, under a proposal for the improvement of Thirteenth street, between Willow avenue and the westerly line of Madison street. The proposal of Mr. Padavano was in accordance with the advertisement which called for proposals for that improvement, and his proposal was made out on a blank furnished by the City Clerk, and was accompanied by an agreement for a bond in accordance with the forms furnished by the city, all of which was as called for in the advertisement for proposals. After banking hours yesterday, Mr. Padavano heard indirectly that you would require a certified check for \$500 with each proposal submitted for this improvement of Thirteenth street, but as it was too late then to procure a certified check, he submitted his proposal, which was in accordance with the advertisement, and in order that there should not be any question about the matter he herewith hands you a certified check for \$500, which you may consider as accompanying his proposal, if you wish, and which he asks you to do, if you require a check.

Very respectfully yours,

LEON ABBETT,

Attorney of James Padavano.

On motion of Councilman Clark the report was received.

The following communication from His Honor Mayor Steil was presented and read:

Mayor's Office,
Hoboken, May 10, 1906.

To the Council:

Gentlemen—I return herewith, without my approval, the petition for a license for a house of public entertainment granted by your Honorable Body at a session held on Wednesday, May 9, 1906, to Mr. Martin Pahlmich, at No. 739 Bloomfield street.

My reasons for so doing are that in my opinion a saloon on these premises is unnecessary, as at present there are regularly licensed saloons at the corner of Eighth and Washington streets and at Eighth and Garden streets, and believing that the remonstrance presented to your Honorable Body at a session held May 2, 1906, signed by almost all the owners of property in the neighborhood, should receive the respect and careful consideration of your Honorable Body, I am of the opinion that the licensing of a saloon at the above mentioned place would be detrimental to the neighborhood and would materially decrease the value of real estate in the vicinity.

Respectfully,
GEORGE H. STEIL,

Mayor.

The following communication from James F. Mniturn, Corporation Attorney, was presented, read and referred to the Committee of the Whole:	

Office of Corporation Attorney,
Hoboken, N. J., May 23, 1906.

The Honorable the Council of the City of Hoboken:

Gentlemen—I have been served with a bill and affidavits and a restraining order in the case of the Manhattan Tunnel Company against the city, in virtue of which the tunnel company seeks to restrain interference by the city officials with the work of tunneling under what would be the extension of Ferry street east of Hudson street, if, Ferry street were thus prolonged. The Vice Chancellor who granted the restraining order fixed Tues-

day, the 29th inst., as the time for hearing argument upon the question involved.

It may be well before the hearing to state the legal situation to your honorable body. The tunnel company was organized under the general railroad and canal act for the purpose of constructing and operating a tunnel railroad under the Hudson River. Under another act passed in 1902 such a railroad is given general powers to operate under streets and highways in cities without the consent of the local governing body.

Under the powers contained in these general enactments I am informed that the Corporation Counsel of Jersey City has advised the Street and Water Board of that city that the tunnel company possesses the power to tunnel under the streets without permission of the local body, and I would advise your honorable body to the same effect as the legislative control over municipalities is such that the Legislature possesses the power of granting such concessions over or under public property, provided private rights be not invaded.

The further question arises in this case, however, viz., whether the tunnel company has the right to interfere with the surface of the street without local consent; and this proposition assumes that Ferry street is continued east of Hudson street as a public thoroughfare.

Two suits in ejectment are now pending on the list of the present term of the Circuit Court involving this question, one against the Delaware, Lackawanna and Western Railroad Company and the other against the North Hudson County Railway Company. These suits were instituted upon my own initiative in connection with ex-Mayor Fagan and not by any resolution or direction of your honorable body. They have not been tried for reasons which I have on more than one occasion given to your honorable body collectively and individually, and which cannot be made public without prejudicing the city's chances of success.

The Loss map, upon which the city bases its claims for street dedications does not show Ferry street east of Hudson street, and at the time the Loss map was made the lands in question, it is claimed, were entirely submerged by the waters of the Hudson River, and under the law were the property of the state of New Jersey as lands between high and low water mark. Two unofficial maps were made, however, one in 1856 and the other in 1874, showing Ferry street continued as far east as the present line of River street, if extended. The mere making of these maps would not effect a dedication unless the street

was actually opened and used by the public as a street.

That would be so as to private interests, but the state being owner of the lands under water, the courts would hold, as has been held in other cases, that the state's right could not be lost in lands under water by mere public uses or local claim. That the state claimed the lands and enforced its claims is proven by the grants the Riparian Commissioners made of these lands to the Hoboken Land and Improvement Company.

The lands in question were conveyed by the Riparian Commissioners to the Hoboken Land and Improvement Company by a grant in 1884. The company conveyed them to the North Hudson County Railroad in 1885 and again in 1887. The North Hudson County Railway was merged with the Hoboken and Paterson Street Railway Company in 1901, and that company leased the lands to the Hoboken and Manhattan Railroad Company for 999 years under which lease the tunnel company is now operating.

It will be seen that so far as the record title is concerned the lands have been regularly conveyed to the tunnel company by the state. The validity of the state grants was tested in the cases of the city against the Penn. R. R. Co., the North German Lloyd & Co., the Hamburg-American Co. and the Hoboken Land and Improvement Co., before the United States Supreme Court, involving the city's claim to the lands under water fronting River, Newark, First, Second and Third streets and that court stated that "the grants from the state of New Jersey under which the defendants claim are a complete bar to the recovery sought against them in these suits."

"The question arises here whether the companies since obtaining the state grants have openly acquiesced in a public use of the land and whether the public have used the land as a highway. That is a question of fact to be established by evidence which I am now seeking to obtain. There is a further question in the case involving the constitutionality of the Riparian act under which these grants were made.

I have contended that the state does not possess the constitutional right to sell a public highway without the consent of local interests affected, and I think the day will come when this principle will be publicly asserted and maintained in deference to popular rights.

It was raised in the argument of the Seventeenth street case in Jersey City, but was not passed upon by the court of final resort and...

still undetermined. The right of the Court of Chancery to grant an injunction against the city while the ejectment suit is pending in the Circuit Court is the question to be raised and determined upon in the hearing in the present case, and in my judgment the Chancery Court is without jurisdiction to do more than preserve the status of the parties until the question of title has been settled by the action at law.

I regard the question of riparian rights of such vital importance to the people that nothing short of the decision of the court of last resort should be considered as settling it, in the event of an adverse decision by the Chancellor.

Yours truly,

JAMES F. MINTURN,
Corporation Attorney.

The following annual report of Chief of Police Hayes was presented, read and referred to the Committee on Police and Militia:

Board of Police Commissioners,
Hoboken, N. J., May 22, 1906.

To the Honorable Mayor and Council City of Hoboken:

Gentlemen—I herewith enclose a copy of the report of Patrick Hayes, Jr., Chief of Police, which report was presented, read and received at an adjourned stated session of the Board of Police Commissioners, held on Monday, May 21, 1906. I was directed to for-

ward same to your honorable body.

Respectfully submitted,
DANIEL J. MCCARTHY,
Clerk.

Department of Police,
Chief's Office,
May 21, 1906.

To the Honorable Board of Police Commissioners, City of Hoboken:

Gentlemen—I herewith present to your Honorable body my annual report, as Chief of Police, for the year ending April 30, 1906.

The year has been an unusually quiet one, and was not marked by any serious outbreaks or disturbances. A large number of professional criminals visited our city, but were apprehended in nearly every instance before they had an opportunity to carry into effect their criminal intentions. The discipline of the department is most satisfactory, and in the performance of the duties assigned them the officers and men have manifested great efficiency and earnestness.

Subject to the approval of your honorable body, I would suggest and recommend that the Police Signal system be installed at Second Precinct station house. Under our present arrangements, all street calls from every part of the city are recorded at Police Headquarters. As the regular police business transacted at the First Precinct is constantly and rapidly increasing, difficulty is often experienced in maintaining the proper service at the signal table. We are compelled, particularly in the forenoon, to assign an assistant to the Sergeant on desk duty. As a great number of these calls are located from the Second Precinct, the adoption of my suggestion would afford considerable relief, as well as facilitating the response to the call for the ambulance, patrol wagons, etc.

The condition of the station houses in this city I respectfully bring to your notice. Both buildings are in need of complete renovation, particularly the Second Precinct house, which requires immediate action by reason of a defective roof. The cells situated in the cellar of the building are dark, damp and isolated from light and a proper ventilation. Built entirely of brick they are unhealthy in the extreme, and are in fact dungeons scarcely fit for human occupancy. I trust you will give this matter your due consideration.

For the year ending there were 2,597 arrests made, and 228 warrants and 1,080 summons served by the members of the department. 243 lost children were cared for by the police matrons. There were 18 suicides reported and 12 attempts at suicide.

Thanking your honorable body for the

hearty and sincere co-operation you have given us during the past year, this report is respectfully submitted.

PATRICK HAYES, JR.,
Chief of Police.

The following annual report of the Board of Free Public Library Trustees was presented, read and referred to the Committee on Finance and Salaries:

Free Public Library,
Hoboken, N. J., May 1, 1906.

To the Honorable the Mayor and Council of the City of Hoboken, N. J.:

Gentlemen—In presenting the sixteenth annual report of the Trustees of the Free Public Library for the fiscal year ending April 30, 1906, for the consideration of your Honorable Board, the Trustees beg to refer to some of the more important results of the year's work in detail.

To the collection of books were added 1,976 volumes, of which 102 were in the German language.

During the year a thorough examination of all the books on the shelves was made, and those found to have outlived their usefulness to the Library were discarded and sent to the Almshouse at Snake Hill, where we are informed they prove to be a source of much pleasure to the unfortunate inmates of that institution.

Deducting the books discarded, lost and removed for other causes, 1,100 in all, we have a net gain for the year of 876, making the total number of volumes in the library 30,596, of which 4,387 are in the German language.

The donations during the year numbered 152 volumes, the more important being the receipt of 47 volumes from Mr. George Pickenbach, 13 volumes from Dr. H. Dinglested, and 28 volumes from the United States Government printing department.

The recorded use of the Library shows the home circulation of 125,844 volumes and the use of 13,752 in the reference department, a total of 139,595 for the year, a daily average use of 460, ranging from 258, the smallest daily use, to 683, the largest. Of the books circulated 12,005 were German, and 41,367 were issued to juvenile readers.

To the several reading rooms during the year came 48,640 visitors, for whom are provided 120 daily, weekly and monthly papers and magazines.

The present urgent need of the Library is a new supplement to the English catalogue, and the present Board of Tax Commissioners will be strongly urged to make the necessary appropriation to enable the Trustees to meet

this most pressing need. It is now six years since the last supplement was issued, and there are some seven thousand volumes to be added to the new one. These books are of course card catalogued, but as the card catalogue can be consulted only at the Library building, it does not give the satisfaction our readers should enjoy in consulting the resources of the Library. The printed catalogue contributes so much to the usefulness of the Library that there should be no further delay in its publication.

The long unsettled controversy between the Library and the Industrial Boards was amicably settled during the year by the withdrawal of the law suits and a mutual understanding of the relative positions and rights of each Board in the building.

After an active service of three years, during one of which he served as Vice-President of the Board, the term of Trustee Wm. J. Reynolds expired on January 1, 1906, and to fill the vacancy Adolph C. Carsten, Esq., was appointed for a full term of five years.

On Monday, November 20, Miss Mary McGavisk died. She was a faithful, conscientious employee of the Library for more than twelve years, and in her death the Library lost an efficient and painstaking attendant. To fill the vacancy caused by her death Miss Ellen Coughlin was promoted to assume charge of the circulating department, and Miss Grace Hayden was appointed a regular attendant in the same department.

During the year the building was completely repaired and painted, and its present condition is such that none but minor repairs will be necessary for some years to come.

The receipts and expenses are fully set forth in detail in the report of the Treasurer, and the details of the work accomplished in the Library, with lists of the donations and of the papers and magazines on file are displayed in the report of the Librarian, both of which are part of this report, and all of which is respectfully submitted for your careful examination and consideration.

For the Trustees,
GEORGE H. STEIL,
President.

THOS. F. HATFIELD,
Secretary.

Whereas, The lower section of the city, particularly in the Fourth Ward, with its dense population, at present possesses no park, square or other open, breathing place; and

Whereas, The general health and betterment of the people of this city is of first importance and it is our duty to provide every possible accommodation that will tend to mitigate the inconveniences that invariably accompany the warm weather about to ensue, and to provide such accommodations as will add to the comfort of all residents, particularly the children, during the summer months; and

Whereas, Because of the continually increasing value of realty the acquirement of sufficient property for park or similar purposes cannot be accomplished except at considerable expense, both in time and money; and

Whereas, It is desirable that any plan that will work for the benefit of the many during the coming summer months must be given immediate attention; and

Whereas, In the opinion of this Board the square at the junction of Ferry and Newark streets, at Jefferson street, could, if paved with asphalt blocks, be converted at little cost into a playground for the children and breathing spots for adults that would do much to relieve the residents in this densely populated section of the city from the ravages prevalent during the summer, the vehicle traffic amounting to little after nightfall; and

Whereas, In addition to providing a playground and breathing spot at this point, the use of asphalt blocks would provide a pavement that would meet with no objections from the owners or drivers of horses during the day, because of the footholds it would give beasts of burden; and in addition there will be provided a place that will merit the approval of the thousands of non-resident trolley car passengers who transfer there and who now freely condemn it as a disgrace to the city; therefore be it

Resolved, That the City Clerk be and he is hereby directed to advertise according to law for proposals for the repaving with asphalt blocks of the square or open space formed by the junction of Newark and Ferry streets at or about the intersection of Jefferson street; and be it further

Resolved, That the city engineers be and they are hereby directed to prepare the necessary plans and specifications for the performance of said work.

The following communication from James F. Minturn, Corporation Attorney, was presented, read and received:

Office of Corporation Attorney,

Hoboken, June 4, 1906.

To the Council of the City of Hoboken:

Gentlemen—On Tuesday last, Vice-Chancellor Pitney heard and decided the application of the Hoboken and Manhattan Railroad Company against the city for an injunction to prevent interference by the city authorities with the work of tunneling under what would be Ferry street extended east of Hudson street.

I submitted testimony of old residents showing the condition of Ferry street east of Hudson street prior to 1885. I also submitted maps and views of the city at that point prior to that period and argued that public use had thereby effected a dedication of the street to the public. The Vice-Chancellor answered this argument by pointing out that the Riparian Commissioners, in 1885, had granted the lands under water and formerly under water east of Hudson street to the Hoboken Land and Improvement Company, under which grant the Tunnel Company now holds its lease. That the Supreme Court of the United States has held that such a grant deprived the city of any right to carry its streets over the lands so granted, and that Hoboken could not acquire any right by use in or over such lands.

But the Vice-Chancellor further insisted that even if the claim of the city to the lands as a street be admitted, the Tunnel Company still had the right to tunnel under it and support its tunneling by superstructure upon the surface that would not obstruct public travel. This right it seems has been conceded to them in Jersey City upon the opinion of the Corporation Counsel, and the Vice-Chancellor held that under the tunnel act of 1902 there could be no doubt about it.

Upon these grounds the Court granted an injunction allowing the company to proceed with its work. I am not satisfied with the views of the Vice-Chancellor upon the subject of riparian owners as they apply to this case,

and I am now drafting a bill for presentation to the Court of Chancery for the purpose of attacking the validity of the riparian grant of 1885, under which the Tunnel Company holds its lease. I may state incidentally that a Commission has just been appointed by the President of the Senate to investigate the entire subject of riparian grants, and I hope, as a member of that Commission, to give some attention to the grants made in this city.

Yours truly,

JAMES F. MINTURN,
 Corporation Attorney.

The following communication from Leon Abbett, attorney for Margaret O'Neill, executrix, was presented, read and referred to the Committee of the Whole in conjunction with the Corporation Attorney:

Hoboken, June 27, 1906.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—In an opinion filed by Chief Justice Gummere, of the Supreme Court, on the eleventh instant, in the case of Margaret O'Neill, executrix, vs. The Mayor and Council of the City of Hoboken, the demurrer of the plaintiff to the principal defenses pleaded by the city in that action was sustained, and the only defense to said action now remaining is to the effect that there was no valid consideration given for the improvement certificates upon which said action is founded, and that they were unlawfully issued.

Even if such was the case, I feel that it would be impossible for the city to prove it, on account of time, and it would be necessary for the city to affirmatively prove such facts by sufficient and legal evidence. We are able to prove, however, that said certificates were

legally issued, and for a good and valuable consideration, and that the City of Hoboken received the benefit of the improvement for which said certificates were issued.

Your Corporation Attorney, Mr. Minturn, and I have had a talk about the matter, and I understand from him that he agrees with me, that it would be difficult for the city to now prove facts sufficient to sustain its only remaining defense, if such facts existed. I also understand that in view of the two decisions in the Supreme Court (one opinion having been written by the late Justice Dixon and the other by the present Chief Justice), both of which were adverse to the city's contentions, he would advise a settlement of the plaintiff's claim.

I would say that the obligations upon which suit was brought are drawing interest at the rate of seven per centum per annum (as provided in the certificates), and I believe that it would be to the city's advantage to stop the payment of such high interest rate.

If you, or your proper Committee, think it wise to bring this litigation to an end, and wish to see me in regard to the matter and talk over the question of a settlement, I would be pleased to meet you at such time and place as you or your Committee might designate.

Yours respectfully,

LEON ABBETT.

Attorney of Margaret O'Neill.

The following communication from His Honor Mayor Steil, forwarding a communication from Chief of Police Hayes, was presented, read and referred to the Committee on Laws and Ordinances in conjunction with the Corporation Attorney:

Mayor's Office,
Hoboken, June 26, 1906.

To the Council:

Gentlemen—I herewith submit to your Honorable Body the enclosed communication from Patrick Hayes, Jr., Chief of Police, which meets with my approval.

Respectfully submitted,

GEORGE H. STEIL,
Mayor.

Department of Police,
Hoboken, June 27, 1906.

To the Mayor and Council of the City of Hoboken:

Gentlemen—I respectfully request and recommend that your Honorable Body take immediate measure toward the passage of an ordinance regulating the sale of fireworks and gunpowder by retail dealers in the corporate limits of the City of Hoboken.

Section 247 of the recompiled ordinances does not meet present conditions. It designates that period between the tenth of June and tenth of July, when it is permissible to offer these articles for sale. This law is unreasonable and absurd, and there can be no logical reason advanced in favor of it. It should be therefore eliminated from our books without further delay, for it is due chiefly to this unwise liberality that the people of our city are subjected to the head-splitting, nerve-racking noises which they experience regularly at this season, and which from year to year, owing to the inventive genius of the manufacturer, is becoming greater and more intolerable.

The police department have been active and earnest in their efforts to suppress this annual annoyance, and have made many arrests as a result of their endeavors, but it would require a force of triple our present proportions, and would demand their undivided attention, to properly cope with existing conditions, as the retail dealer is licensed to sell indiscriminately, and is completely beyond our juris-

diction. Under the State act of 1903, full and ample provision was made for regulating the sale of firearms, but afforded no aid in controlling the sale of fireworks and gunpowder.

Should my request meet with your approval, I would further suggest that the limitation for the sale of these articles be reduced to the time intervening between the first day of July and the fifth day of July. Action has been taken by the authorities of neighboring municipalities in reference to this matter, and it is only proper and due that similar action should be taken here.

Trusting that you will give this question your earnest and sincere consideration, I am

Respectfully yours,
PATRICK HAYES, JR.,
Chief of Police.

The following communication from John F. Keating, Clerk of the Board of Fire Commissioners, forwarding resolution adopted by the said Board, was presented, read and referred to the Committee of the Whole, in conjunction with the Corporation Attorney:

Hoboken, June 27, 1906.

To the Honorable the Mayor and Council of the City of Hoboken:

Gentlemen—At a meeting of the Board of Fire Commissioners, held at Headquarters on Tuesday evening, June 26, 1906, the following preamble and resolution was adopted and ordered forwarded to your Honorable Body for your immediate consideration:

Whereas, During the year 1903 a shortage took place in the finances of this Department, owing to the fact that one thousand dollars (\$1,000) had to be expended for hose and an engine broke down, necessitating an expenditure of seventeen hundred and ninety dollars (\$1,790) for that year, and again in 1904 and 1905 additional hose had to be purchased at a cost of one thousand dollars (\$1,000) and an engine rebuilt at an expense of sixteen hundred and fifty dollars (\$1,650), making a total of twenty-six hundred and fifty dollars (\$2,650), and making an actual shortage during the years 1903, 1904 and 1905, of five thousand four hundred and forty dollars (\$5,440), which had to be paid by this Board out of the gen-

eral appropriation for fire purposes, and which this Board did pay; and

Whereas, During the present fiscal year two of the Commissioners found it necessary, in order to make the said shortage good, and for the purpose of paying the salaries of the employees of the Department, to borrow from one of the city banks in their own names the said sum of three thousand four hundred dollars (\$3,400), which sum is still due, unpaid and owing to the said bank, and for the payment of which the said two members of this Board are liable upon the said promissory note; and

Whereas, The Tax Commissioners have not appropriated to meet the said shortage, so as to relieve the said members of this Board upon the said promissory note; therefore

Resolved, That the above mentioned facts be presented to the Council of the City of Hoboken, and that His Honor the Mayor be requested to call a special session of the Tax Commissioners for the purpose of having an appropriation made to meet the said obligation, and that in the event of their failure to do so, the Council be requested to take the necessary steps, as advised by the Corporation Attorney, to make the said shortage good.

Respectfully submitted,

(Signed)

Department of Police,

Hoboken, N. J., Sept. 12, 1906.

To the Mayor and Council of the City of Hoboken.

Gentlemen—I herewith present to your Honorable Body charges against the following named saloonkeepers, who in my opinion are unfit persons to conduct such places of business in this city. As the law prescribes a certain procedure in these cases, I trust your Honorable Body will take this matter in hand at your earliest convenience. The accused licensees are as follows:

H. Winter Mikkelsen, 338 Park avenue. This man has been convicted before Recorder Stanton of violation of the barmaid ordinance; was adjudged guilty, fined \$150 on three counts and held in \$1,000 bail to await the action of the Grand Jury on a charge of keeping a disorderly house.

Alfred Wellin, 401 Fourth street. Also convicted before the Recorder for violating the barmaid ordinance on three counts, fined \$150, and held to await the action of the Grand Jury for keeping a disorderly house.

Henry Muller, 301 Garden street. Case before the Grand Jury for violating the State liquor law (serving liquor in a back room and permitting prostitutes to assemble in his place of business).

William Baans, 314 Hudson street. This place is known as the Hotel Amsterdam and is licensed under the name of J. H. Bullwinkle. Baans has conducted this business in a most improper manner and has permitted women to patronize his hotel for immoral purposes.

William Mollica, 501 First street, violating the State liquor law by selling liquor on Sunday; two charges.

Abert Stokel, 714 First street. This saloon was raided by the police on the evening of August 31 as a disorderly house. Stokel was held in \$1,000 bail to await the action of the Grand Jury.

The complainants in all these cases are members of the police department.

Respectfully submitted,

PATRICK HAYES, JR.,

To the Mayor and Council of the City of Hoboken:

Gentlemen—Your Committee of the Whole, to whom was referred the charges made by Chief of Police Hayes, would respectfully report that the Committee of the Whole met on the 4th day of October, 1906, and again on the 9th day of October, 1906, and that they have heard the testimony presented by the witnesses of the Chief of Police and by the witnesses of the defendant in each case and duly considered the same, and would recommend to your Honorable Body to revoke the license of H. Winter Nikkelsen, of 333 Park avenue, and the license heretofore granted to Alfred Wellin, of 401 Fourth street, and that in the cases of H. Muller, of 301 Garden

street, and of J. H. Bullwinkel, of 319 Hudson street, and William Mollica, of 501 First street,.

Office of the Corporation Attorney,

Hoboken, Nov. 26, 1906.

To the Honorable the Council of the City of Hoboken:

Gentlemen—For some time I have been endeavoring, in conjunction with the Street Commissioner, to bring about the repavement of Park avenue and Monroe street, of this city, wherever they need repaving, by the Barber Asphalt Company, a successor of the Utica Asphalt Company, but that company has declined to repave upon the grounds that the gas company allows gas to leak through the asphalt, and destroys the pavement in that manner. I succeeded in bringing the gas company's representative and a representative of the Barber Company together in my office, but they did not agree. As a result nothing has been done to repair the pavement.

I would suggest to your Honorable Body that the streets be paved under your direction at once, after proper advertising, and that I be directed to sue the Barber Asphalt Company for the cost of the repavement.

There is no doubt in my mind whatever that the city will obtain judgment against this company, under its bond, for the cost of the repavement.

Very truly yours,

JAMES F. MINTURN,

Corporation Attorney.
